[Project No. 606-027]

Pacific Gas & Electric Company; Notice of Availability of Supplemental
Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 Code of Federal Regulations (CFR) Part 380, Commission staff prepared a Supplemental Environmental Assessment (Supplemental EA), to supplement its Final Environmental Impact Statement (Final EIS), issued August 16, 2011. On March 13, 2009, Pacific Gas & Electric Company (PG&E), filed with the Commission its application to surrender its license for the Kilarc-Cow Hydroelectric Project No. 606. The project is located on Old Cow Creek, South Cow Creek, and tributaries in Shasta County, California.

The Supplemental EA was prepared to address changes that have occurred since the issuance of the Final EIS. Based on staff's independent analysis in the Supplemental EA, Commission approval of PG&E's proposal, as mitigated by the environmental measures discussed in the Supplemental EA, would not constitute a major federal action significantly affecting the quality of the human environment.

The supplemental EA may be viewed on the Commission's website at <http://www.ferc.gov> using the "elibrary" link. Enter the docket number (P-606) in the docket number field to access the document. At this time, the Commission has suspended access to the Commission's Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19), issued by the President on March 13, 2020. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1-866-208-3372, or for TTY, (202) 502-8659.
